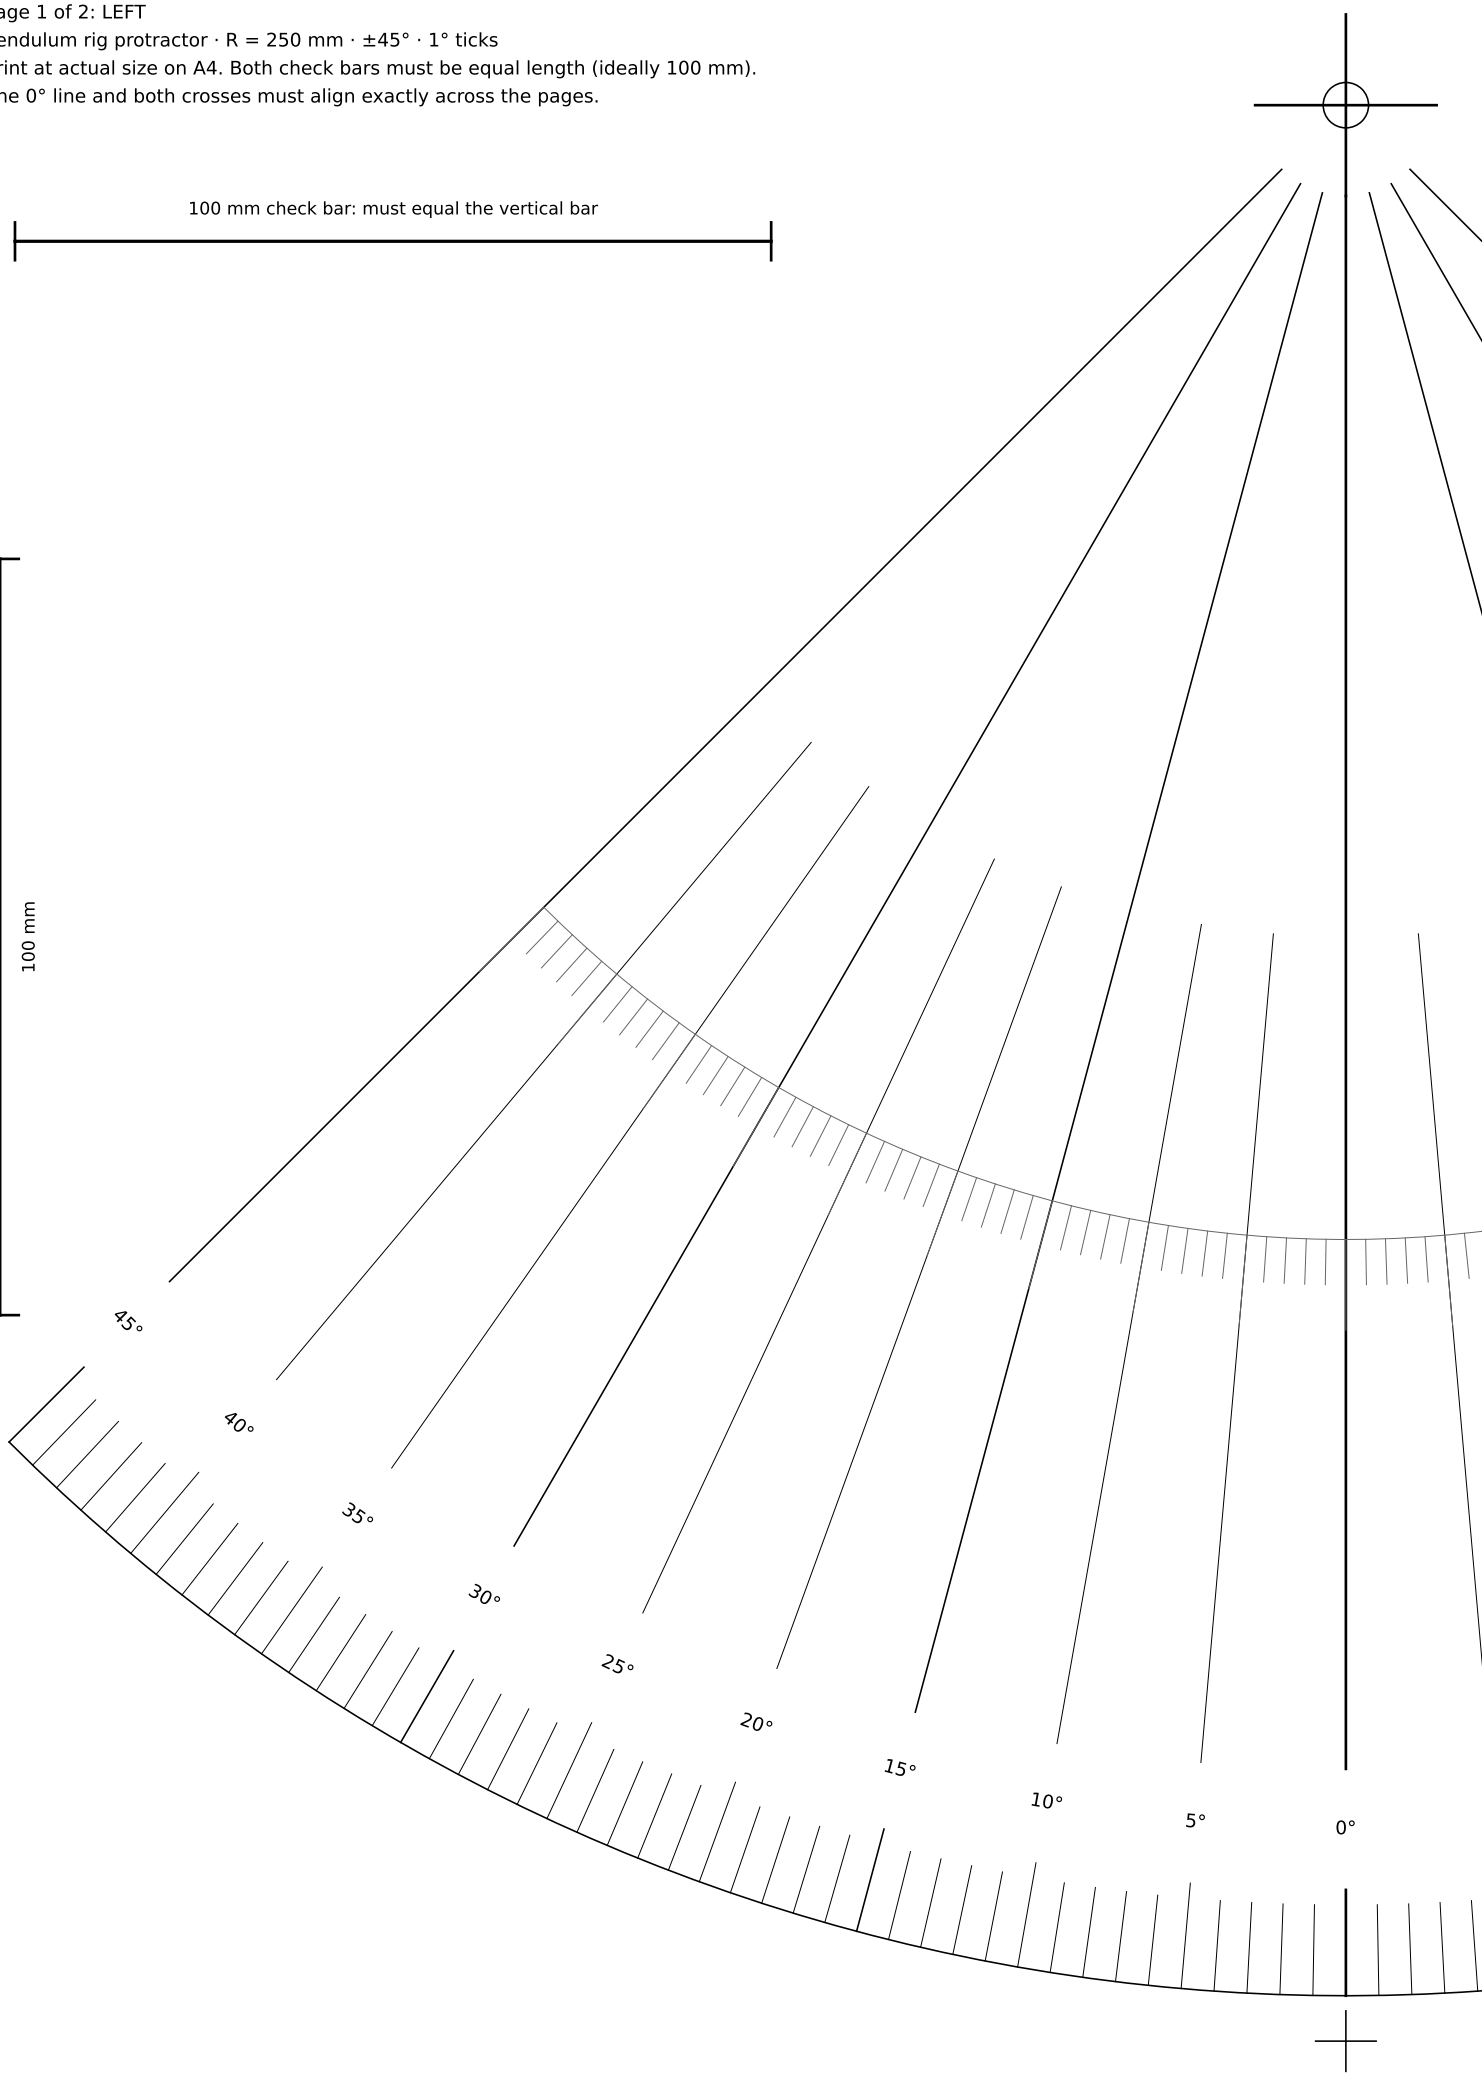
Page 1 of 2: LEFT

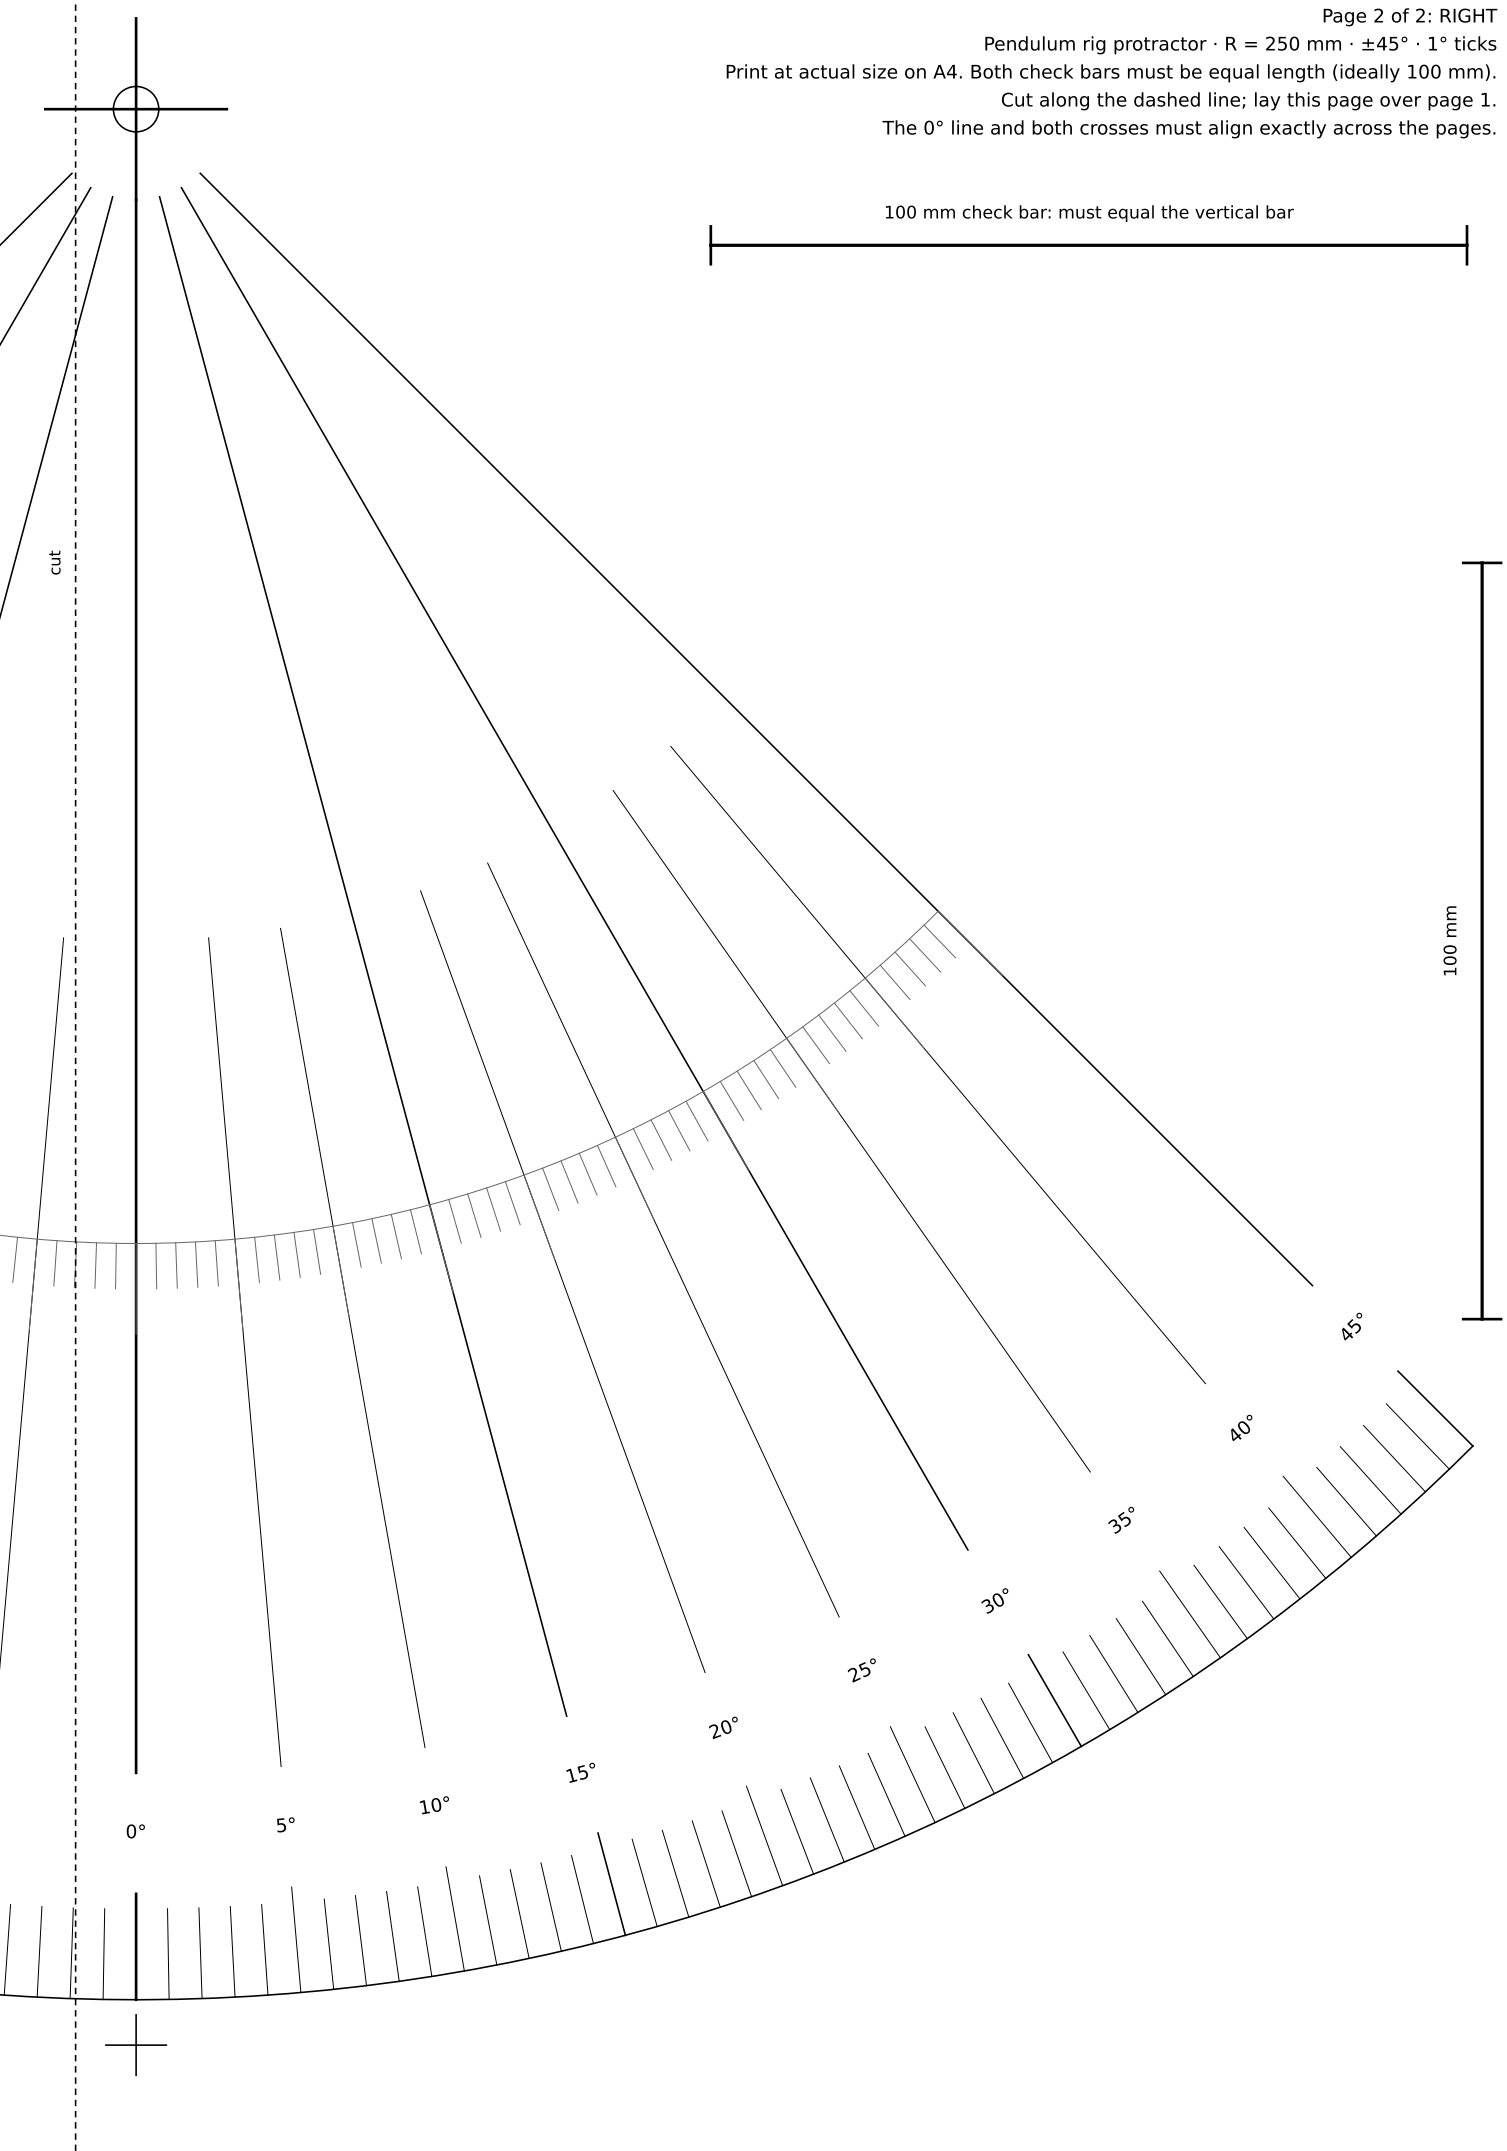
Pendulum rig protractor · R = 250 mm · ±45° · 1° ticks

Print at actual size on A4. Both check bars must be equal length (ideally 100 mm).

The 0° line and both crosses must align exactly across the pages.

100 mm check bar: must equal the vertical bar



Page 2 of 2: RIGHT
Pendulum rig protractor · R = 250 mm · ±45° · 1° ticks
Print at actual size on A4. Both check bars must be equal length (ideally 100 mm).
Cut along the dashed line; lay this page over page 1.
The 0° line and both crosses must align exactly across the pages.


100 mm check bar: must equal the vertical bar
